Dear Landowner/Resident/Occupant/Business Owner:

**RE: ENMAX Power Corporation (ENMAX Power) Application Update  
VARSITY NORTHWEST Transmission Line Letter of Enquiry Application**

### **BACKGROUND**

On February 22, 2023, ENMAX Power applied to the Alberta Utilities Commission (AUC) to leave certain overhead portions of transmission lines 15.62L and 16.63L in place permanently (AUC proceeding #27965). On December 6, 2023, the AUC denied ENMAX Power's application in Decision 27965-D01-2023 and directed ENMAX Power to file a new application (Original Decision).

On June 14, 2024, the AUC initiated a review of the Original Decision (AUC proceeding #29097). The purpose of that review was to determine whether the Original Decision should be confirmed, rescinded, or varied.

### **UPDATE**

On November 13, 2024, the AUC issued Decision 29097-D01-2024, where it varied the Original Decision and approved ENMAX Power's application filed in AUC proceeding #27965. Accordingly, transmission lines 15.62L and 16.63L will remain permanently as completely overhead transmission lines.

ENMAX Power appreciates the interest and feedback expressed by stakeholders throughout the regulatory processes for this Application.
