

Steps we take to protect **the environment**

Each project is reviewed during the planning phase to help outline environmental effects.

Identify
potential issues

Prevent or reduce
environmental impact

Restore habitat
and work areas

Monitor recovery

Guidance and standards

Every project follows environmental legislation, regulations, guidelines, policies and operating approvals.

This includes **obtaining all required approvals and permits** from regulatory bodies including:

- The City of Calgary
- Alberta Environment and Protected Areas
- Fisheries and Oceans Canada
- Environment and Climate Change Canada
