**2.82/2.83L VICTORIA PARK
Transmission Line Relocation Project
RE: Information about our proposed utility work in your area**

Dear Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Corporation (ENMAX Power) Stakeholder Relations team, we want to share this information package with you related to our proposed 2.82/2.83L VICTORIA PARK Transmission Line Relocation Project (the Project).

We have provided the following documents for your review:

- Project Newsletter: includes details about the Project, including the proposed work to be completed, Project location and the planned schedule; and,
- Alberta Utilities Commission (AUC) Public Involvement Brochure: outlines the role of the AUC and the Project approval process.

This information is also available at enmax.com/victoriapark-2-82L.

Providing Your Input

Our team is committed to actively engaging with stakeholders and obtaining your feedback about the proposed Project - your input is valuable to us. The stakeholder consultation process will allow us to effectively share Project information and address any questions or concerns you may have in advance of filing the Project application with the AUC.

ENMAX Power plans to host four **drop-in** open houses, where you will have the opportunity to engage with subject matter experts and learn more about the Project. These will include discussions about the need for the Project, route options explored, environmental considerations and ENMAX Power's Participant Involvement Program. We hope to see you there.
