

ENMAX at a glance

About ENMAX

Who we are: ENMAX is a leading energy provider, headquartered in Calgary, Alberta. We own and operate transmission and distribution utilities that safely and reliably deliver electricity to our customers. Between our business units, we operate across the energy value chain—as a regulated wires company, a competitive power generator and an energy retailer. ENMAX is a private corporation and The City of Calgary is its sole shareholder.

Looking to the future, ENMAX has a renewed strategy focus anchored in evolving to a regulated utility. For Calgarians, this means confidence in the long-term sustainability of their utility and a reliable source of revenue for The City.

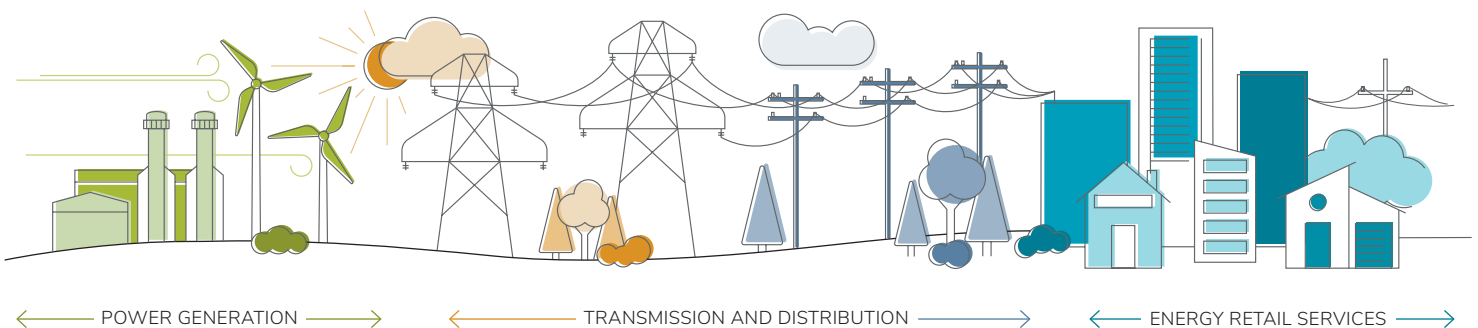

Our purpose: Lighting the way to a brighter energy future.

Our businesses:

ENMAX Power Owns and operates Calgary's electricity transmission and distribution system ensuring reliable power to over half a million metered customers and all Calgarians.

ENMAX Energy: One of Alberta's largest competitive electricity retailers, offering energy solutions for homes and an electricity power generator.

Versant Power: Delivers electricity to more than 165,000 customer accounts across northern and eastern Maine, owning and operating transmission and distribution infrastructure to provide safe, reliable power to homes and businesses.

ENMAX is available to provide expert insights on:

- **Electricity grid and reliability:** How we ensure power reliability, grid modernization and investments in electricity infrastructure, including upgrading aging infrastructure and meeting the demands for Calgary's growth.
- **Energy market and pricing:** Trends in Alberta's deregulated energy market and how energy prices impact customers.
- **Outage response and safety:** How we respond to power outages and electricity safety.
- **Energy transition:** Our role in Alberta's energy transition, including decarbonization, electrification and its effect on the grid.
- **Community investment:** ENMAX's role in supporting local initiatives, energy affordability and efficiency programs.

Powering our community
