**RE: ENMAX No. 54 SUBSTATION**  
Capacity Upgrade Project  
**Facility Application**

Dear Landowner/Resident/Occupant/Business Owner:

ENMAX Power Corporation (ENMAX Power) is sharing this information package to support stakeholder awareness and understanding of the proposed No. 54 Substation Capacity Upgrade Project (the Project). This project will upgrade the existing substation to support the growing electrical needs of people and businesses in Southeast Calgary.

We've included a few materials to help you learn more about the Project:

- a Project newsletter with information about the location and schedule; and
- an Alberta Utilities Commission (AUC) brochure that explains the AUC's role and how approval works for projects like this; and
- an Alberta Electric System Operator (AESO) Need Overview notification.

Please reach out to the AUC should you require more information about the regulatory process.
