

# Let's get your energy moving.

Below are a few tips to help you transfer your energy to your new home.

### It's not automatic

You wouldn't abandon your favourite couch, so why leave your electricity or natural gas behind? If you're moving within Alberta, plan to set up or cancel your services 30 days before your moving day\*.

### Transferring is free

Just like your buddies with the pickup truck, moving your energy doesn't cost anything and we're happy to help you on the weekend.

### Communication is key

Make sure your first meal isn't a romantic pizza delivered in the dark. Talk to your partner about who's going to look after setting up services at your new address.

Visit [enmax.com/moving](http://enmax.com/moving) or give us a shout at **310-4010** and we will take one thing off your list.
