RE: No. 31 Substation Project

Dear Landowner/Resident/Occupant/Business Owner:

We are sharing information about a proposed project at ENMAX Power's No. 31 Substation. The project would add current-limiting reactors inside the existing substation to help protect equipment and support reliable electricity service.

This package provides a clear overview of the Project and what it may mean for the area. It includes:

- project newsletter with information about the location and proposed schedule; and
- an Alberta Utilities Commission (AUC) brochure that explains the AUC's role and how approval works for projects like this.

If you would like more information about the regulatory approval process, please reach out to the AUC for more information.

Alberta Utilities Commission

Thank you,

Stakeholder Relations
ENMAX Power

In the spirit of reconciliation, we respectfully acknowledge that we live and work on the traditional lands of Indigenous Peoples. ENMAX headquarters is in Calgary, Alberta, the traditional territory of the Blackfoot Confederacy, comprised of the Siksika, Kainai, Piikani, and Amskapi Piikuni Nations; the Tsuut'ina Nation; and the iyârhe Nakoda Nations of Chiniki, Bearspaw, and Goodstoney, and home to the Métis Nation of Alberta, as well as many diverse Indigenous people who have made the city their home. We are committed to strengthening relationships with Indigenous Nations and peoples in all communities where we operate, through respect and collaboration.
