**RE: CENTRAL CALGARY
Transmission Line Replacement Project**

Dear Landowner/Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Stakeholder Relations team, we are providing an updated information package about our proposed CENTRAL CALGARY Transmission Line Replacement Project (the Project).

We have included the following documents for your review:

- Project Newsletter: contains details about the pending Project, the area in which the Project is located, and the planned Project schedule; and,
- The Alberta Utilities Commission (AUC) Public Involvement Brochure: outlines the role of the AUC and the approval process related to certain types of projects.

This information is also available on our website at enmax.com/centralcalgaryproject. On this site, you can also find related documents and learn more about why ENMAX Power is seeking AUC approval of the Project.

The AUC Process

ENMAX Power anticipates filing an application with the AUC for approval of the Project in Q3 2024. The AUC will review the application through its formal process, which allows for participation of interested parties that may be directly and adversely effected by the Project. To learn more about the AUC process and how you can become involved, please refer to the brochure included in this package titled, "Public involvement in a proposed utility development".

To learn more about the AUC regulatory process, please contact:
Alberta Utilities Commission
Phone: 403-310-4282
Email: info@auc.ab.ca
Website: auc.ab.ca

For more information or to provide feedback about the Project please feel free to reach out to us directly:

- Call us at 403-514-1471.
