

# ENMAX Corporation

ENMAX operates across the energy value chain – as a regulated wires company and a competitive power generator and energy retailer. We power the potential of people, businesses and communities by safely and responsibly providing electricity and energy services in a way that matters to them now and in the future. We are a leader in Canada for system reliability and the top retailer for both energy and solar in the province of Alberta. In 2020, ENMAX acquired Emera Maine, a regulated electric transmission and distribution utility headquartered in Bangor, Maine.
