**RE: NORTHWEST CALGARY  
20.82/1.81L Transmission Line Alteration Project**

Dear Landowner/Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Stakeholder Relations team, we are providing an information package about our proposed NORTHWEST CALGARY 20.82/1.81L Transmission Line Alteration Project (the Project).

We have included the following documents for your review:

- Project Newsletter: contains details about the pending Project, the area in which the Project is located, and the planned Project schedule; and,
- The Alberta Utilities Commission (AUC) Public Involvement Brochure: outlines the role of the AUC and the approval process related to certain types of projects.

This information is also available on our website at [enmax.com/northwest2082](http://enmax.com/northwest2082). On this site, you can also find related documents and learn more about why ENMAX Power is seeking AUC approval of the Project.

### Providing Your Input

Our team is committed to actively engaging with stakeholders and obtaining your feedback about the proposed Project – your input is valuable to us. The stakeholder consultation process will allow us to effectively share Project information and discuss any questions or concerns you may have in advance of filing the application for the Project with the AUC.

ENMAX Power plans to host two Open House sessions, where you will have the opportunity to engage with the Project team and learn more about the Project, including Project need, potential route options, environmental considerations and ENMAX Power's Participant Involvement Program.

Please feel free to attend any of the following Open House sessions outlined below:

## The AUC Process

ENMAX Power anticipates filing an application with the AUC for approval of the Project in Q3 2025. The AUC will review the application through its formal process, which allows for participation of interested parties that may be directly and adversely affected by the Project. To learn more about the AUC process and how you can become involved, please refer to the brochure included in this package titled, “Public involvement in a proposed utility development”.

To learn more about the AUC regulatory process, please contact:
