**RE: ENMAX NO. 5 SUBSTATION
Switchgear Replacement**

Dear Landowner/Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Stakeholder Relations team, we are providing an information package about our proposed ENMAX No. 5 SUBSTATION Switchgear Replacement Project (the Project).

Stakeholder consultation began in October 2023 when ENMAX Power sent out the initial newsletter for the Project. Due to additional time needed to complete key Project planning activities, ENMAX Power has revised the timeline for filing the Project application with the AUC to Q2 2024. Please see the updated newsletter for more information on the Project.

We have included the following documents for your review:

- Project Newsletter: contains details about the pending Project, the area in which the Project is located, and the planned Project schedule; and,
- The AUC Public Involvement Brochure: outlines the role of the AUC and the approval process related to certain types of projects.

This information is also available on our website at enmax.com/No5substation. On this site, you can also find related documents and learn more about why ENMAX Power is seeking AUC approval of the Project.

For more information or to provide feedback about the Project please feel free to reach out to us directly:

- Call us at 403-514-1471
- Email us at stakeholderrelations@enmax.com
- Use the online “Request a call back” feature at enmax.com/No5substation

Thank you,

Stakeholder Relations
ENMAX Power
